Forward-Looking Statements

This Supplemental Financial Information Package include "forward-looking statements" (within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended) that are subject to risks and uncertainties. In particular, statements pertaining to our capital resources, portfolio performance and results of operations contain forward-looking statements. Likewise, our statements regarding anticipated growth in our funds from operations and anticipated market and regulatory conditions, our strategic direction, our dividend rate and policy, demographics, results of operations, plans and objectives are forward-looking statements. Forward-looking statements involve numerous risks and uncertainties, and you should not rely on them as predictions of future events. Forward-looking statements depend on assumptions, data or methods which may be incorrect or imprecise, and we may not be able to realize them. We do not guarantee that the transactions and events described will happen as described (or that they will happen at all). You can identify forward-looking statements by the use of forward-looking terminology such as "believes", "expects", "may", "will", "should", "seeks", "approximately", "intends", "plans", "estimates" or "anticipates" or the negative of these words and phrases or similar words or phrases. You can also identify forward-looking statements by discussions of strategy, plans or intentions. The following factors, among others, could cause actual results and future events to differ materially from those set forth or contemplated in the forward-looking statements: rates of default on leases for our assets; concentration of our portfolio of assets and limited number of tenants; the estimated growth in and evolving market dynamics of the regulated cannabis market; the demand for regulated cannabis facilities; inflation dynamics; our ability to improve our internal control over financial reporting, including our inability to remediate an identified material weakness, and the costs and the time associated with such efforts; the impact of pandemics on us, our business, our tenants, or the economy generally; war and other hostilities, including the conflict in Ukraine; our business and investment strategy; our projected operating results; actions and initiatives of the U.S. or state governments and changes to government policies and the execution and impact of these actions, initiatives and policies, including the fact that cannabis remains illegal under federal law; availability of suitable investment opportunities in the regulated cannabis industry; our understanding of our competition and our potential tenants' alternative financing sources; the expected medical-use or adult-use cannabis legalization in certain states; shifts in public opinion regarding regulated cannabis; the potential impact on us from litigation matters, including rising liability and insurance costs; the additional risks that may be associated with certain of our tenants cultivating, processing and/or dispensing adult-use cannabis in our facilities; the state of the U.S. economy generally or in specific geographic areas; economic trends and economic recoveries; our ability to access equity or debt capital; financing rates for our target assets; our level of indebtedness, which could reduce funds available for other business purposes and reduce our operational flexibility; covenants in our debt instruments, which may limit our flexibility and adversely affect our financial condition; our ability to maintain our investment grade credit rating; changes in the values of our assets; our expected portfolio of assets; our expected investments; interest rate mismatches between our assets and our borrowings used to fund such investments; changes in interest rates and the market value of our assets; the degree to which any interest rate or other hedging strategies may or may not protect us from interest rate volatility; the impact of and changes in governmental regulations, tax law and rates, accounting guidance and similar matters; our ability to maintain our qualification as a real estate investment trust for U.S. federal income tax purposes; our ability to maintain our exemption from registration under the Investment Company Act of 1940; availability of qualified personnel; and market trends in our industry, interest rates, real estate values, the securities markets or the general economy.

The risks included here are not exhaustive, and additional factors could adversely affect our business and financial performance. In addition, we discussed a number of material risks in our most recent Annual Report on Form 10-K and subsequent Quarterly Reports on Form 10-Q. Those risks continue to be relevant to our performance and financial condition. Moreover, we operate in a very competitive and rapidly changing environment. New risk factors emerge from time to time and it is not possible for management to predict all such risk factors, nor can it assess the impact of all such risk factors on our business or the extent to which any factor, or combination of factors, may cause actual results to differ materially from those contained in any forward-looking statements. Any forward-looking statement made by us speaks only of the date on which we make it. We undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required by law. Stockholders and investors are cautioned not to unduly rely on such forward-looking statements when evaluating the information presented in our filings and reports.

Market and industry data are included in this presentation. We have obtained substantially all of this information from internal studies, public filings, other independent published industry sources and market studies prepared by third parties. We believe these internal studies, public filings, other independent published industry sources and market studies prepared by third parties are reliable. However, this information may prove to be inaccurate. No representation or warranty is made as to the accuracy of such information. All amounts shown in this report are unaudited. This Supplemental Financial Information Package is not an offer to sell or solicitation to buy securities of Innovative Industrial Properties, Inc. Any offers to sell or solicitations to buy securities of Innovative Industrial Properties, Inc. shall be made only by means of a prospectus approved for that purpose.

Note: Loan list maturity does not include available loan extensions.

- 1) As of March 31, 2023, we had funded approximately \$18.4 million of the construction loan.
- 2) Relates to the seller-financed note issued to us by the buyer in connection with our disposition of a portfolio of four properties in southern California previously leased to Vertical. The transaction did not qualify for recognition as a completed sale in accordance with GAAP and therefore, we have not derecognized the assets transferred and have not recognized the seller-financed note on our consolidated balance sheet.

Definitions

- **Adjusted Funds From Operations (“AFFO”):** Management believes that AFFO and AFFO per share are appropriate supplemental measures of a REIT’s operating performance. We calculate AFFO by adjusting Normalized FFO for certain cash and non-cash items.
- **Annualized Base Rent (“ABR”):** ABR is calculated by multiplying rental payments (defined as the contractually due base rents and property management fees for the last month in the quarter), by twelve.
- **Development / Redevelopment (“Dev. / Redev.”) Properties:** Defined as non-operating assets under development that are not leased and not ready for their intended use.
- **Exchangeable Senior Notes:** 3.75% Exchangeable Senior Notes due 2024.
- **Funds From Operations (“FFO”):** FFO and FFO per share are operating performance measures adopted by the National Association of Real Estate Investment Trusts, Inc. (“NAREIT”). NAREIT defines FFO as the most commonly accepted and reported measure of a REIT’s operating performance equal to net income (computed in accordance with GAAP), excluding gains (or losses) from sales of property, depreciation, amortization and impairment related to real estate properties, and after adjustments for unconsolidated partnerships and joint ventures.

Management believes that net income, as defined by GAAP, is the most appropriate earnings measurement. However, management believes FFO and FFO per share to be supplemental measures of a REIT’s performance because they provide an understanding of the operating performance of our properties without giving effect to certain significant non-cash items, primarily depreciation expense. Historical cost accounting for real estate assets in accordance with GAAP assumes that the value of real estate assets diminishes predictably over time. However, real estate values instead have historically risen or fallen with market conditions. We believe that by excluding the effect of depreciation, FFO and FFO per share can facilitate comparisons of operating performance between periods. We report FFO and FFO per share because these measures are observed by management to also be the predominant measures used by the REIT industry and by industry analysts to evaluate REITs and because FFO per share is consistently reported, discussed, and compared by research analysts in their notes and publications about REITs. For these reasons, management has deemed it appropriate to disclose and discuss FFO and FFO per share.

- **GAAP:** Accounting principles generally accepted in the United States.
- **Gross Debt:** Calculated as the sum of the principal amount outstanding of the Notes due 2026 and Exchangeable Senior Notes.
- **Normalized Funds From Operations (“Normalized FFO”):** We compute normalized funds from operations (“Normalized FFO”) by adjusting FFO, as defined by NAREIT, to exclude certain GAAP income and expense amounts that we believe are infrequent and unusual in nature and/or not related to our core real estate operations. Exclusion of these items from similar FFO-type metrics is common within the equity REIT industry, and management believes that presentation of Normalized FFO and Normalized FFO per share provides investors with a metric to assist in their evaluation of our operating performance across multiple periods and in comparison to the operating performance of other companies, because it removes the effect of unusual items that are not expected to impact our operating performance on an ongoing basis. Normalized FFO is used by management in evaluating the performance of our core business operations. Items included in calculating FFO that may be excluded in calculating Normalized FFO include certain transaction-related gains, losses, income or expense or other non-core amounts as they occur.

Definitions (Continued)

- **Notes due 2026:** 5.50% Unsecured Senior Notes due 2026.
- **Operating Portfolio:** All properties that (a) are leased or (b) are not leased but ready for their intended use.
- **Rent Collection:** Calculated as actual base rent and property management fees collected over contractual billed base rent and property management fees. Includes security deposits applied for payment of rent.
- **Series A Preferred:** 9.00% Series A Cumulative Redeemable Preferred Stock, \$0.001 par value per share.
- **Total Committed / Invested Capital:** Includes (1) total investments in properties (consisting of purchase price and construction funding and improvements reimbursed to tenants, if any, but excluding transaction costs) and (2) total additional commitments to reimburse certain tenants and sellers for completion of construction and improvements at the properties. Excludes loans listed in "Secured Loans".
- **Total Portfolio:** All properties, including CIP and operating portfolio, as of quarter end.
- **Total Preferred Equity:** Calculated by multiplying the total Series A Preferred shares outstanding by the \$25 redemption price per share.
- **Total Senior Capital:** Calculated as the sum of Gross Debt and the redemption value of the Series A Preferred Stock.
- **% Leased:** The weighted average percentage of the Operating Portfolio, which excludes CIP, that is leased as of the period ended.
